

Your Girlfriend's Face

The Magnetic Fields

So I've taken a contract out on you
I have hired a hitman to do what they do
He will do his best to do his worst
After he's messed up your girlfriend first

I said he'll do his worst
To your girlfriend first

'Cause I've hired the fixer for her too
For stealing my lover and making me blue
He'll have to hose off your twisting place
After he blows off your girlfriend's face

I want the whole bloody place
Wet with your girlfriend's face

So I've taken a contract out on y'all
For make me feel infinitely small
In the evenings I devise your death
Being buried alive on crystal meth

Baby, I'd give you death
By, by, by crystal meth
