

Angel

The Magnificent

One last time I hold you near
Feel so bad 'cause I have to let you go
It's so hard to say these words
But I love you more than you'll ever know

Hiding the tears deep in my heart
Trying so hard to stay strong
Still keep praying for a miracle
A way I could turn back time

Even now, through grief and sorrow
The memories will go on
Forever more

You are my angel
I always will follow
Your wings will carry me when I fall
When I'm lost in the shadows
Trying to find my salvation
You are the reason I'll make it through
It's breaking my heart when I hear
I hear you say, the last goodbye

You were my guide through the darkest nights
Your passion was my inspiration
You gave me the strength to face the storms of life
The love that you gave will live on
Forevermore

You are my angel
I always will follow
Your wings will carry me when I fall
When I'm lost in the shadows
Trying to find my salvation
You are the reason I'll make it through
It's breaking my heart when I hear
I hear you say, the last goodbye

You are my angel
I always will follow
Your wings will carry me when I fall
When I'm lost in the shadows
Trying to find my salvation
You are the reason

You are my angel
I always will follow
Your wings will carry me when I fall
When I'm lost in the shadows
Trying to find my salvation
You are the reason I'll make it through
It's breaking my heart when I hear
I hear you say, the last goodbye
