

The Shamrock Shore

The Mahones

So, fare the well
My own true love
I think of you night and day.
Fare well to old Ireland
Good bye to you Banna Strand
No time to look back
Facing the wind
Fighting the waves
May heaven protect us all
From cold hunger and angry swans
Pray I won't be lost
Winds in the sails carry me safe
[Chorus:]
So, fare the well
My own true love
I'll think of you night and day
A place in my mind
You will surely find
Although I am so far away
And when I'm alone
Far away from home
I'll think of the good times once more
Until I can make it back
Some day
Here to Paddy's green shamrock shore
Out now on the ocean deep
Ships noise makes it hard to sleep
Tears fill up my eyes
The image of you
Won't go away
[Chorus]
New York is in sight at least
My heart it is pounding fast
Trying to be brave
Wishing you near
By my side
As one
[Chorus]
