I am weakness, I am greatness, I'm anything, you want me to be I am wasted, and I'll make this The anthem for a dying breed

See the light in the night when you're fading away Trust in us, we're all that you've got these days Take a look inside my heart Oh, lets get carried away

Don't you dare, don't you ever give up, Don't you ever give up, oh whoa Don't you dare, don't you ever give up, Don't you ever give up on us, my dear

I am selfless, I am selfish,
I'm anything, that I want to be
This is violent, this is honest,
It's the anthem for a dying breed

See the light in the night when you're fading away Trust in us, we're all you've got these days Take a look inside these eyes Oh, lets get carried away

Don't you dare, don't you ever give up, Don't you ever give up, oh whoa Don't you dare, don't you ever give up, Don't you ever give up on us my dear

Don't give up on us No, don't give up on us

Don't give up on us No, don't give up on us

Don't you dare, don't you ever give up, Don't you ever give up, oh whoa Don't you dare, don't you ever give up, Don't you ever give up on us, my dear
