

Give Me Anything

The Maine

The boys they have their eyes all over you
And you're loving every second of attention.
I need to find just some way to get through
Or at least some way that I can mention.

I'm feeling you
You're feeling me
What exactly is holding us back?
I'm feeling you
Are you feeling me?
Just give me something
Give me, give anything

Oh it's you
And it's true
You're electric, I can't get over it
Oh it's you
And it's true
You're electric I can't get over it

You're running through my veins You feel like a freight train
I'm trying everything to keep my hands off of you
Just give me something
Please, just give me anything
Because I want you more than they do

And oh no
I think I lost myself in your deep blue eyes
And oh no
I think it's time we cut to the chase tonight.

Oh it's you
And it's true
You're electric, I can't get over it
Oh it's you
And it's true
You're electric I can't get over it

You're electric I can't get over it
You're electric I can't get over it
