Time To Go

The Maine

It's time to go, so put all your clothes on
I've got the keys, baby you're so gone
It's time to go, so put on all your clothes
We're running late, and we both know
'Cause you've got your plans, and you know that I have mine
I fade away, got so little time

So tonight, tonight, let's fade away, let's fade away
Get it all to just one day
Tonight, tonight, oh baby we'll fade away
This is our time, oh yeah
So baby it's time to

Get on the dance floor, pretend you know how
To make 'em all scream, do what they're talking about
Just feel the music, fuck what they're saying
This is the moment, that we've been waiting on

'Cause you've got your plans, and you know that I have mine
I fade away, got so little time
So tonight, tonight, let's fade away, let's fade away
Get it all for just one day
Tonight, tonight, oh baby we'll fade away
This is our time, oh yeah
So baby it's time to go

They said it's time to go
Half dressed, she's walking out the door
And I just thought that I would try to let you know
We'll be a mess around 3 or 4
We all know that I'm fine to go

So tonight, tonight, let's fade away, let's fade away
Get it all for just one day
Tonight, tonight, oh baby we'll fade away
This is our time, oh yeah
So baby it's time to go

So tonight, tonight, let's fade away, let's fade away
Get it all for just one day
Tonight, tonight, oh baby we'll fade away
This is our time, oh yeah
So baby it's time to go

Oh it's time to go
