

Time

The Maine

Well we're trapped
In this human body
Yes I'm trapped
I've got no place else to go
And I can't even help my brothers
Cause there's still so much I don't know

I just need some time
To figure out
Time to figure out
Time to figure this thing out
I just needed some time

Well we're trapped
In this modern city
Yes I'm trapped
With this fancy drugs
And I can't even please my mother
Cause there's still so much that she don't know

I just need some time
To figure out
Time to figure out
Time to figure this thing out
I just needed some time

I just needed some time
Oh I just need some time
Yes, I could use some time
Oh, do you have the time?

This can't be all for nothing
But this time is all the time I get

Time to figure out
Time to figure out
Time to figure this thing out
Oh hey
I could use some time
To figure out (Just a little time)
Time to figure out (Its all I need)
Time to figure this thing out (Tell you baby. Oh yeah.)
I just need some time
