

## El Ciervo Vulnerado

The Mars Volta

I've been drinking black mirror again  
The closer we part  
I needed to touch your lips  
With the nail in my heart  
The night that you caught me  
My coffin did walk  
I fell at your mercy  
I fell in your grave  
Meccamputechture  
That stands in my way  
The younger I stay  
An elderly child  
The longer the mirror gives birth  
To the death I file

If you consume me I will not let you go  
If you walk right through me  
My voice will taint your throat  
Blessed be the wrong I've done

Someone is watching us  
Someone has found  
Fluorescent ligaments  
On a black white tile  
Why do you call them  
If your kingdom won't come  
The younger I stay  
Forever I rot

If you consume me I will not let you go  
If you walk right through me  
My voice will taint your throat  
Blessed be the wrong I've done

Because the flies my mouth spill  
Bare the children at play
