Memories

The Mars Volta

I know I cannot leave this place full of memories Things like the way they knew us all over town We used to walk the streets together We could be seen Past shops where people knew us, yeah people Yeah they knew

Memories can hang you up and haunt you all your life, you know Get so you cannot stay and yet cannot go

I could find out where she's gone today
I feel so unhappy
Streets seem so empty now
I want you with me

Memories can hang you up and haunt you all your life, you know
Get so you cannot stay and yet cannot go
