

# Bird without wings

## The Material

Lately I've been feeling  
Like a bird without its wings  
Tell me how can one still fly without the other  
My heart is missing a big part  
That only you can see  
I try so hard to patch the hole with  
Friends and lovers  
And I know you can save me  
If I could learn to let go  
I just gotta let go

I could ask you my questions  
But I know the answers  
I know what's missing from this life  
I could search for the meaning  
But I know what's waiting  
I know I need you in this life

There was a time when I could hear you calling out to me  
(calling out to me)  
There's so much noise that its gotten in the way  
I know that I could be the girl  
You wanted me to be  
I just pray you still recognize my face  
I know you could save me  
If I could learn to let go  
Learn to let go

I could ask you my questions  
But I know the answers  
I know what's missing from this life  
I could search for the meaning  
But I know what's waiting  
I know I need you in this life

You were the one beside my feet  
You were the wind upon my cheek  
I'm letting go of everything  
Cause now I believe  
You were the one beside my feet  
You were the wind upon my cheek  
Each breath is a gift you've given me  
And now I believe

I know you could save me  
If I could learn to let go  
I just gotta let go

I could ask you my questions  
But I know the answers  
I know what's missing from this life  
I could search for the meaning  
But I know what's waiting  
I know I need you in this life  
Need you in this life  
In this life
