

Stay here forever

The Material

There we were, dancing in the dark
Put your hands wrapped around my heart
We were kids, shamelessly in love
In the days when love was still enough

Well take me back to when you said goodbye
So that I could change your mind
Darling don't go
Don't leave me alone
Come on and say we're together, stay we're together
It's a mistake
Don't leave me this way
Come on and stay here forever, stay here forever

Sneaking out to meet you in the street
Running fast against the summer heat
I never thought that those days would ever end
But here we are, you wanna be just friends

Well take me back to when you said goodbye
So that I could change your mind
Darling don't go
Don't leave me alone
Come on and say we're together, say we're together
It's a mistake
Don't leave me this way
Come on and stay here forever, stay here forever

Take me back to when you said goodbye, so that I could change y
our mind
Take me back to when you said goodbye

Darling don't go
Don't leave me alone
Come on and say we're together, say we're together
It's a mistake
Don't leave me this way
Come on and stay here forever, stay here forever

Stay here forever, stay here forever
