

## The Promise

## The Material

Come what may  
This September has never felt so far away  
We've got a secret, we've got to keep it  
Let them say what they want to say

"So tell me who's going to end this, because forever  
never ever works out,"  
Well baby we've got the promise and nothing's going to  
break us down

Come what may

I'm afraid it won't be as easy as it used to be  
The world's romantics replaced by skeptics  
What do they know about this anyway.

"So tell me who's going to end this, because forever  
never ever works out,"  
Well baby we've got the promise and nothing's going to  
break us down

Come what may

If it's not your heart it's your head  
Turning you around on the words you've said  
Don't give up on the light, I need to see it in your  
eyes  
To guide me through the darkest nights

"So tell me who's going to end this, because forever  
never ever works out,"  
Well baby we've got the promise and nothing's going to  
break us down

Come what may
