

I'm Wondering

The Mavericks

I see you almost everyday
Sometimes I see you look my way
I'm wondering, do you feel the butterflies?
A little anxious deep inside I'm wondering

When I see you out with others
Are you only friends or lovers?

I know it's strange to feel like this
We haven't even shared a kiss
But I'm wondering, I can sit and fantasize
Till fantasy is realized, I'm wondering

When I see you out with others
Are you only friends or lovers?

I think of waking by your side
For you your breathing in your sides, I'm wondering
Or is this just a should've been or could've been
Or would've been, I'm wondering

Or is this just a should've been or could've been
Or would've been I'm wondering

Is this just a should've been or could've been
Or would've been I'm wondering
