

I Think of You

The Mavericks

A moonlight serenade
The melody that's played
Like memories on parade
I Think of you
And who could second guess
Those nights without regrets
That no one could forget
I think of you

I see your face lying beside me
And then the trace of your kiss on my lips
Always reminds me...

Walks on the boulevard
Two lovers arm in arm
Lost in each other's charms
I think of you

Those words you said to me
A lover's poetry
For all eternity
I think of you...
And as the years go by
These memories are mine
I think of you
