

I Will Be Yours

The Mavericks

If you should want to, or ever need to
Find yourself someone who would be true
I know the right one, to be that someone
And he has fallen in love with you

If you surrender to love so tender
Until forever I will be yours
Don't ever leave me, darling believe me
Until forever I will be yours

Though time is borrowed, every tomorrow
Will bring us closer than yesterday
And so remember each night together
We'll see our heaven's one dream away
