

Things I Cannot Change

The Mavericks

Leaves fall in the cool October air
Days grow short and I can't remember
Where I saw you last
Turned against the summerlight
Walking off on that final August night
I was there on my knees all alone

In a world where nothing ever stays the same
I am left with only things I cannot change
You're gone away
And left me things I cannot change

Smoke will rise and the fire always burns
Sands will drift and tides will turn
And I can't wrestle with the sea
Rearrange the sky or fight against the wind
Anymore than I can bring you back to me

In a world where nothing ever stays the same
I am left with only things I cannot change
You're gone away
And left me things I cannot change

So far away and left me things I cannot change
Left me things I cannot change
Left me things I cannot change
