

Reigns Over Me

The Mayfield Four

I drove by late that night
And my heart stopped, and so did time
Inside her lights were dim
But I could see she was with him

And now all I want is to move on
Still she reigns over me
And now making love's like drown in blood
Still she reigns over me

If time could fade a thing
In a thousand years
I'd still see her face
She haunts me everywhere I go
In this small town, my prison's home

And now all I want is to move on
Still she reigns over me
And now making love's like drown in blood
Still she reigns over me

All I want is to move on
Still she reigns over me
And now making love's like drown in blood
Still she reigns over me

All that I want is to move on
'Cause still she reigns over me
