

# Gonna Need Somebody

The Maytals

Every morning, every night you make me cry  
Just because you know I love you  
You told me to always wait for you there  
Want me to lose my mind?

Then I'll start my crying around  
All I do is cry while you just sit and you lie  
You told me you really loved me  
You loved me, loved me, loved me, loved me true

Want me to lose my mind?  
Then I'll start my mind around  
Sick and tired of wasting my time  
Called you on the phone and you was not at home

That's too bad  
You got me way deep down in a soul  
That can make you more  
Gonna need somebody now  
Need somebody true
