

# It Must Be True Love

The Maytals

When you feel like loving  
I feel like loving too  
When you feel like kissing  
I feel like kissing too

When you feel like dancing  
I feel like dancing with you  
And this must be true  
True love

Tell me that you love me  
'Cause I'm in love with you  
Although it's the first time I met you  
I feel like kissing with you

Just tell me that you love me  
'Cause I'm in love with you  
And this must be true  
True love

Tell me that you love me  
'Cause I'm in love with you  
I've been kind you told me  
You will love no one but me

Though it's the first time I met you  
I feel like kissing with you  
This must be true  
True love

Tell me that you love me  
'Cause I'm in love with you  
I've been kind you told me  
You will love no one but me

Just when you feel like kissing  
I feel like kissing with you  
And this must be true  
True love  
This must be true  
True love
