

We've got the greenest people working on this  
dragging their little feet and their thick yellow hides  
as we rush head first into tomorrow's world  
but something must have happened y antenna  
I hope it's clean I hope it's all good stuff  
HO HO HO

Stare into the microwave face to the screen now  
come alive to the fat beetle humming 'Deceive the world'  
reach out to crush it through asbstos gloves  
but something must have happened to my antenna  
I've gone throughh a hole in the sky, bye bye now
