

Heaven and Back

The Mekons

she had been misplaced by the government
our old friends are under attack
they crossed over the border
(but) i have been to heaven and back
i've been to heaven and back
right in front of my eyes
things have a habit of happening to me
it's no suprise
some of the people they stayed behind
now they're all in prison or dead
i'm looking up at the mountain
i have been to heaven and back
ooo animal radar
like a thread around the world
loving and laughing my head's going 'round
i am a curious boy...
some people write little verses
others go on looking for cracks
uh handcuffed to history
i have been to heaven and back
