

# Spinning Round in Flames

The Mekons

I am on Earth  
Gravity is familiar  
Blood flows thru my veins  
And children laugh(?)

What goes on in those countries so far away  
You never saw such evil since yesterday  
Read the worst and last  
It's our job to be a different times  
Staring in the Safeway and never get paid  
But bloodlust is

In these moments, you learn who your friends are  
We shall remember this place  
Spinning round in flames

Existing images only serve existing lies  
Terrible solar inside coil around the horizon  
Spinning round in flames

So broke in the dark  
We shall remember this place

Spinning round in flames
