

## Come Here Often?

The Menzingers

He said, "The white boy's visiting, the black man's here  
to stay"  
While my privilege showed like the chalk marks on display  
The fear is something new, I'm confused by property too  
The romanticized aesthetic, man it isn't as poetic  
As apologetic street names and wars waged to lose

"Keep your head down"  
"Keep your head down"  
"Keep your head down"  
He said, "Keep your head down"

"While you're walking through here"
