

Dog

The Meteors

Dog he likes the alleyways
The alleyways the alleyways
Old dog he likes the alleyways
He walks them every night
He don't like the bright light streets
The bright light streets the bright light streets
He don't like the bright light streets he likes to hide
at night
Dog he likes the alleyways
The alleyways the alleyways
Old dog he likes the alleyways
He walks them every night
He don't like the bright light streets
The bright light streets the bright light streets
He don't like the bright light streets he likes to hide
at night
He's as mad as a meat axe
He's as crazy as a fox
He's always out there hunting
He really likes to rock
He's out there on a mission
He's always on the prowl
If your not to careful you might hear old doggy howl

Dog he likes the alleyways
The alleyways the alleyways
Old dog he likes the alleyways
He walks them every night
He don't like the bright light streets
The bright light streets the bright light streets
He don't like the bright light streets he likes to hide
at night

He really is a nutter
He isn't very nice
He doesn't like the humans
You can see it in his eyes
Skulking in the darkness
Where he likes to be
He's waiting for a victim
And blood he 's got to see

Dog he likes the alleyways
The alleyways the alleyways
Old dog he likes the alleyways
He walks them every night
He don't like the bright light streets
The bright light streets the bright light streets
He don't like the bright light streets he likes to hide
at night

Shining in the darkness he's in love with steel
Sharp and clean it sings to him
The words he hears are real
The world it treats him badly or so it seems to him
Left alone and raised by strays
Dog is the back street king.

Dog he likes the alleyways
The alleyways the alleyways
Old dog he likes the alleyways
He walks them every night
He don't like the bright light streets
The bright light streets the bright light streets
He don't like the bright light streets he likes to hide
at night
Dog he likes the alleyways
The alleyways the alleyways
Old dog he likes the alleyways
He walks them every night
He don't like the bright light streets
The bright light streets the bright light streets
He don't like the bright light streets he likes to DO
