Into the Darkness

The Meteors

I was walking down a lonely street
on my way home
I hurried pass an alley
'cause I heard somebody moan
But I took a quick look
there was nothing there to see
While I heard a voice saying,
"Step into the darkness with me"
Yeah!
I stepped into the darkness
the ground spun around
My life flashed before me
as I hit the ground
My brain started buzzing
my body started writhing
The darkness grew in blacker
I knew that I was dying
Now I'm standing in the alley
calling come into the dankness with me

Won't somebody help me
I gotta get a way
I don't have to make
myself to escape
So, step into the alley
to find what you might see
Yeah, help me get away —
step into the dankness with me

Step into the darkness
Step into the darkness
Step into the darkness
Step into the darkness
Yeah, help me get away —
step into the darkness with me
