

Never Stop the Hate Train

The Meteors

I stay buried in the dark
Cos I fucking scare myself
But you come round the corner
Looking for me looking for me
Some fuckers are always trying to bring me down
But you wont no
Never will never will cos I got this big hate train
You wanna ride it come on jump on board I ain't gonna stop you no more

Your never gonna never gonna never stop the hate train
Never gonna stop the fucking hate train no

It took lot of shaking
And quite a bit of poking
Then finally I woke up
Thought I would distract myself
But bollox to that here it comes
Gonna fire this thing right up
Drive a hole right through your life
Get out of the fuckin way no chance

Chorus

Fuck all your politics I ain't born for that
Stop telling me what you think I am
I ain't so stupid as to pick one of your sides
Either way you don't fit my plan
Fuck the world

Fuck all your politics I ain't born for that
Stop telling me what you think I am
I ain't so stupid as to pick one of your sides
Either way you don't fit my plan
Fuck the world

Fuck all your politics I ain't born for that
Stop telling me what you think I am
I ain't so stupid as to pick one of your sides
Either way you don't fit my plan
Fuck the world

Now I'm cooking now I'm rockin
Rollin this thing straight through your world
Now you're running now your screaming
Burn burn you fucker
What you gonna do when it comes around
How you gonna cope when it hits your station
What you gonna do here comes the hate train

Fuck all your politics I ain't born for that
Stop telling me what you think I am
I ain't so stupid as to pick one of your sides
Either way you don't fit my plan
Fuck the world
