

The Hills Have Eyes

The Meteors

We`re the forgotten people
we live here out here after the bomb
well they put something strange in my daddy's water
and that's where we come from

me and my two brothers
we gotta eat everything that we can
we take the trees and the cows
we eat bids of each other
And Gnaw Holes out of your caravan

And the hills have eyes
we`re looking at you
there ain`t no escape
there ain`t no damn thing you can do

Well old Jupiter he`s our leader
he`s the meanest man that I know
well he`s a killing machine
he stands 7 feet tall
made out of hate and muscle and bone

He eats rocks for breakfast
cuz that`s the only food that he`s found
But If he catches you
he`s gonna take out your eyes
don`t waste time putting you in the ground

And the hills have eyes
we`re looking at you
there ain`t no escape
there ain`t no damn thing you can do

Run and hide Children!

Well if you`re drivin through our country
you better go right on through
cuz if you stop for any single thing at all
well we`re all gonna get you

If you think you can kill us
get that thought out of your head
cuz a lot of people tried to put us in the ground
and now there`s a lot more dead

And the hills have eyes
we`re looking at you
there ain`t no escape
there ain`t no damn thing you can do

And the hills have eyes
we`re looking at you
there ain`t no escape
there ain`t no damn thing you can do
