

## Straight Up Pop Song

The Methadones

There's something  
I'm trying to say  
Play what you want  
And let the chips fall where they may

Because I left you  
Feeling? smart?  
It gives me hope  
And it keeps me alive  
Keeps me alive

And here's a  
Straight-up  
Pop song for you  
Do what you want with it

I'll get my? low income track?  
And you'll be talking shit behind my back  
'cause a rock song  
Is yesterday's news  
For better or worse  
It's who I am and what I do

And here's a  
Straight-up  
Pop song for you  
Do what you'd like with it

It's not like your band deserves your big break  
Now everything, you say, is sour grapes  
Sold your records and guitar  
But things had fallen through  
Music means a lot to me  
It must not mean much to you

And here's a  
Straight-up  
Pop song for you

Some day you'll consider  
And you move on
