

Break So Easily

The Mighty Mighty Bosstones

You would break so easily, so fragile that it frighens me.
A harsh sudden reality, a painful possibility.
To see it's like the strangest dream to be it needs to still be
seen.
As loud as any noise you've heard, as quiet as a whispered word
.
Try to answer questions forced, forced inside of me.
You were forced across the line, you're not providing me.
You would break so easily, I watched you break so easily.
What's it like to be right up against, not stay on this side of
the fence.
A line so fine it can't be traced, a life so suddenly erased. Tw
o came through just like a train.
A flash and nothing's been the same.
Try to answer questions forced, forced inside of me.
You were forced across the line, you're not providing me.
Provinding me with what I need to put a cover on you.
You took the answers when you broke, so easily you're gone.
Once the same until you broke so easily.
Tell me now.
