

One Million Reasons

The Mighty Mighty Bosstones

If I could have my way you wouldn't leave There's nothing I can do about it Nothing I believe There's got to be a million reasons to stay A million more to not walk away If I could have my way you wouldn't leave and I could list each one What would that get me? It's been said and done It's just a list A million reasons That I missed. I realize I probably brought this on What good's that going to do me Probably no good When you're gone There's got to be a million reasons to stay A million more to not walk away I realize I probably brought this on I could list each one Where would that get me It's been said and done It's just a list A million reasons And I don't want to list the reasons That I missed. I was caught off guard I've never been hit so hard I've never been hit as hard as this Too hard to be explained Nothing will be regained And I'll gain nothing from the list from the list from the list If I could have my way you wouldn't leave I realize I probably brought this on 1, 2, 3, 4 A million reasons why to stay.
