Shit Outta Luck

The Mighty Mighty Bosstones

Check the new car out in the mirror Here comes the fastest man in the traffic jam A major road rager with a bone to pick I'll take another quick look and I'm over it Right you're richer now weren't you happier When you were shit out of luck You've got so much but you've forgotten It's more fun when you don't give a fuck Tear it down to the ground A lot of kids grew up in there You put it up and then you made a ton Well aren't you the lucky one Right you're richer now weren't you happier When you were shit out of luck You've got so much but you've forgotten It's more fun when you don't give a fuck
