

## Blush

## The Mission

She's got her hands on my steering wheel  
Driving my car and I'm just the passenger  
Taking me to heaven again  
And I'm getting there too fast for her

And when she takes a dangerous curve  
A swerve, it makes me rush  
And when she puts her foot on the brake  
It slows me down and makes me blush

Sometimes when she drives too fast  
I lose control and then we crash  
Close my eyes when she overtakes  
I don't wanna see a head on smash

And when she takes a dangerous curve  
A swerve, it makes me rush  
And when she puts her foot on the brake  
It slows me down and makes me blush

And when she shifts it into fifth  
I'm along with her for the ride  
And when she hits the open road  
I explode and we collide  
What a ride?

And when she takes a dangerous curve  
A swerve, it makes me rush  
And when she puts her foot on the brake  
It slows me down and makes me blush

And when we reach our destination  
Our location, I'm all out of breath  
I'm all out of breath, I'm all out of breath  
She'll be the death of me
