

Like A Child Again

The Mission

I'm not scared anymore
I'm not scared of the dark when I sleep with you
With you...
And I'm feeling alive
And I'm feeling strong again when I'm with you
with you...
And it hits me
Just like a runaway train
And it blows me away
Just like a hurricane

You make me happy and I hope you feel the same
You make me feel just like a child, a child again

I'm not trapped anymore
Between Madonna and the whore when I lay with you
with you...
And the days run away
Like wild horses run away when I'm with you
ahaa...
And I'm breathing you in
Just like the morning air
And I'm wrapping you around
Just like a skin to wear

You make me happy and I hope you feel the same
You make me feel just like a child, a child again

Oh, sweet thing
I'm born once again
For you, sweet thing
Just like a baby again

You make me happy and I hope you feel the same
And I'm in heaven and it feels like gentle rain

You make me happy and I want you to feel the same
You make me feel just like a child, a child again
