

Love Me to Death

The Mission

Let me come inside your ivory tower
Let me come inside your hallowed walls
God, it's heaven in here
Fix me with your hand of praise
Fix me with your touch of precious thrills

Your fingers dance across my skin
Reaching out for the pride of man

Hand in hand, flesh in flesh
We're walking through the fire of love
Breath by breath and flame by flame
We burn 'til the sun rises and shines hot

Love comes gushing, love runs free
My love comes all over you
My love comes for you

Love me to death, my flower
Run bare fur through my hair
Naked on my lips
Love me to death, my precious
Smother me with kisses
Drown me in your waves of falling sweetness

Hold me dear, bury me deep
Bless me with your word of savage honor
We love more by fate than design
So give me your hands
And I'll gladly give you my life

A flower that sways in the breeze
You must be stronger
Than the winds that blow you away
Blow you away

Love me to death, my precious
Run bare fur through my hair
Dance wild on my lips
Love me to death, my flower
Lay me down on your bed of petals
Cover me with your honey, my blossom

(Love me to death, love me to death)
Love me to death, my flower
(Love me to death)
Love me to death, my treasure
Run bare fur through my hair
(Love me to death)
Dance wild on my heart

Love me to death, my precious
(Love me to death)
Love me to death, my love
Tarnish, taint and punish me softly
(Love me to death)
Softly love me to death, love me to death
