

Shine Like the Stars

The Mission

I will carry a torch for you
The flame will burn forever strong
And I will light the way for you
When the night is dark and long

And Ill shine Ill shine like the stars for you
Ill shine like the sun and moon
Ill rise like the wind for you
Ill rise like sun, Ill rise like moon
Ill shine like the stars for you

I will be the strength for you
When you are frail and weak
And when you shiver and shake with cold
I will be the warmth that you seek

And Ill shine Ill shine like the stars for you
Ill shine like the sun and moon
Ill rise like the wind for you
Ill rise like sun, Ill rise like moon
Ill shine like the stars for you
