

Tower of Strength

The Mission

You raise me up
When I'm on the floor
You see me through
When I'm lonely and scared
And I'm feeling true to the written word

And you're true to me
And still I need more
It would tear me apart
To feel no one ever cared
For me, me, me
You are a tower of strength to me

You stand firm and proud
When the wind blows in your face
And when the sun shines in your eyes
You just turn your head away
To me, me, me
You are a tower of strength to me

You rescue me
You are my faith
My hope, my liberty
And when there is darkness all around
You shine bright for me
You are the guiding light

You are a tower of strength to me

[Incomprehensible]

You are all passion and heart
When I lay in your embrace
And Heaven is in your kiss
Salvation lies just a touch away
To me, me, me
You are a tower of strength to me

To me

Yeah yeah
