

Always In My Heart

The Moffatts

One day I'll finally get the nerve to say
How I feel, I hide away all the pain
I wish you'd stay

Cause I can't stop my world from crying
I'll hold on and I'll keep on trying

I believe there's a way to show you
Even when we are apart
Though the times we're not together
You're always in my heart

Words come a little too late
Now you're gone but I'm still here and
I sing this song all alone
Something's wrong

Cause I can't stop my world from crying
I'll hold on and I'll keep on trying

Off all the things that I regret
Sometimes I forget to say
I love you
