

# California

The Moffatts

I open my eyes  
To see her face  
In a daze we engaged  
Last night I slept about an hour  
To fill her needs and desires

One more night in California  
One more night with you  
One more night  
Ya she's alright (she's alright)  
One more night (yeah)  
One more night in California

Dom dom dom baby one more night  
Dom dom dom baby one more night

I need to catch a ride  
To the south side  
I grabbed a patty and a shake  
I felt the earthquake  
I jumped in the cab for LAX  
I flipped him a tip  
hey man!  
Then I split

One more night in California  
One more night with you  
One more night

But she's alright  
She's alright  
One more night (yeah)  
One more night in California  
Night in California  
Night in California  
Night in California

dom dom dom baby one more night  
dom dom baby one more night  
I opened my eyes to see her face

But she's alright  
she's alright  
One more night (yeah)  
one night in California

She's alright  
She's alright  
One more night..yeahhh  
One more night in California  
Night in California  
Night in California  
Night in California
