Don't Walk Away

The Moffatts

Look in my eyes and let the moment begin You make me feel like I can do anything One look from you just sends my troubles away What I would do, to be with you

Chorus: Don't walk away Why don't you stay I've been waiting for somebody like you Please don't walk away Why won't you stay That you're ready and you're feelin' it too Cause if it's love If it's love Then don't walk away

I wanna show you I've got nothing to hide Don't be afraid of what you're feeling inside Deep in my heart there is nobody but you What I would do, to be with you

Repeat Chorus
