Dream World

The Monkees

Walking around with your head in the clouds You don't care. Why must you walk when you know You're not going anywhere.

Why don't you come out of your dream world It's not real. It's not the way it seems to be. Why don't you come into the real world. Come with me. We'll share our thoughts, forget the dreams. You'll see.

Always pretending that everything's fine When it's not. Why must you lie when you know that You'll aways get caught.

Why don't you come out of your dream world It's not real. It's not the way it seems to be. Why don't you come into the real world. Come with me. We'll share our thoughts, forget the dreams. You'll see.

Why don't you come out of your dream world It's not real. It's not the way it seems to be. Why don't you come into the real world. Come with me. We'll share our thoughts, forget the dreams. You'll see. You'll see.
