

# Time And Time Again

The Monkees

Time and time again  
Naughty girls get me in trouble  
When I fly too high  
Something's bound to burst the bubble

You say this is love  
Wonder if you're feeling lonely  
Tell me if you please  
Is this for this evening only

Or will it be for long, long time  
Or just a passing fancy  
Will it be for a long, long time  
I feel as though it can be

I'll just wait and see  
What tomorrow has to bring me  
A love that is oh-so-true  
Or another girl who's free and easy

So, I'll just wait and see  
What tomorrow has to bring me  
A love that is oh-so-true  
Or another girl who's free and easy

Time and time again  
And again
