

Life's Not Life

The Moody Blues

Every ray of light
Now reminds me of the day
How come you went away
So suddenly

It's kinda like you planned
To run and hide from me
Now life's not life no more
Time to think it over
You were just a lover
You're much more than that now
And now I fell
In such a state of feeling down

And life's not life no more
Life's not life
No, life's not life no more
I've slipped up for sure
I slipped up
But not enough to fall
Life's not life no more
I've slipped up for sure
I slipped over
Now I'm felling sore
Life's not life no more.
