

Never Comes the Day

The Moody Blues

Work away today
Work away tomorrow
Never comes the day
For my love and me
I feel her gently sighing
As the evening slips away

If only you knew what's inside of me now
You wouldn't want to know me, somehow
But you will love me tonight
We alone will be all right
In the end

Give just a little bit more
Take a little bit less
From each other tonight
Admit what you're feeling
And see what's in front of you
It's never out of your sight
You know it's true
We all know that it's true

Work away today
Think about tomorrow
Never comes the day
For my love and me
I feel her gently sighing
As the evening slips away

If only you knew what's inside of me now
You wouldn't want to know me, somehow
But you will love me tonight
We alone will be all right
In the end

Give just a little bit more
Take a little bit less
From each other tonight
Admit what you're feeling
And see what's in front of you
It's never out of your sight
You know it's true
We all know that it's true
