

## So Deep Within You

The Moody Blues

Talk to me baby  
I want to sleep at night  
My heart is heavy  
It's weighed down by the night  
And now I'm lonely  
I want to see the light  
So deep within you

Cool wind is blowing  
Through your crazy hair  
Warm colours flowing  
This feeling we have shared  
And now I'm lonely  
I want to feel the love  
So deep within you

Your love's a never ending dream  
A castle by a stream  
Of sweet understanding  
I know you're thinking of me, too  
The messages from you  
Are my inspiration

Love's incense lingers  
It never fades away  
Like you I'm waiting  
For our special day  
And now I'm lonely  
I want to feel the love  
So deep within you

My love is burning  
Like a forest fire  
My heart is yearning  
I feel a warm desire  
And now I'm lonely  
I want to touch the fire  
So deep within you
