Strange Times

The Moody Blues

Long time ago Back in the mist of time Back when the crystal waters flowed There was a world So strange and so beautiful All life would flourish and would grow

Years went by Time just fell away Love was worshipped like the sun But as we arrive at the house of the water sign We're living in strange times Strange times, strange times

What do we need? What do we hunger for? Who holds the secrets, who will know?

Temples of greed In ruins on the river bed Wastelands that lived before the snow

Time stands still As we race through the universe On our way to the sun And as we arrive at the house of the water sign We're living in strange times Strange times, strange times

It's you and I forever We won't be afraid Even if the stars are falling down, down, down, down, down Falling down

Time stands still as we race through the universe On our way to the sun And as we arrive at the house of the water sign We're living in strange times Strange times, strange times Strange times, strange times Strange times, strange times
