

Everybody Wants

The Moog

You keep on telling me
That I have got to see
How rude I was to all your friends

Oh please, the only thing I need
Is to make you believe
That I will never care about that

Everybody wants
Me to be like those who I have never loved
Oh why is it so hard to understand
That I don't feel the same

Sorry for being
So careless and sneering
This night taught me
(That) I don't belong to you

The same clubs and same drinks
The same people who think
That I'm shallow and irritating

Everybody wants
Me to be like those who I have never loved
Oh why is it so hard to understand
That I don't feel the same
