

I Wanna Take You to Paris

The Moog

Take the time and look around
Slowly but we're losing ground
The streets conspired to drown us
Let's wave goodbye

I wanna take you to Paris
Sneak into clubs where the fun is
I'll spit wine on the ceiling
Until your face seems so beaming
And when the night is over
We'll start to act way bolder

Everyone's so serious
But I'm only delirious
I could wait but life can't
We're almost late

I wanna take you to Paris
Sneak into clubs where the fun is
I'll spit wine on the ceiling
Until your face seems so beaming
And when the night is over
We'll start to act way bolder
Singing lalalalalalalaaaaa

The problems can't run as fast
As we can do we can do now
Come with me there's no time to think
This road ends here
But have no fear
Oh my dear
A new day is here
