

Lost Day

The Moog

Sound and fury of these days
Adorns all the lights with grace
Beaming down in early dark
Days she gave eternal love
to me

Time to spend in the cold
Jump up to reach the void
Learning to speak to tell
What was the love I felt

Say you will say you will
Hold my hand lead you and me down
All the way all the way
Down the plains head south I never
Have you close enough I never
Have you close enough you know I
Never was the kind of boy who
Will repay love with a smile

Dark air falling sweetly down
Glistening drops to the ground
Six days done past doors and doors And seconds line up to be words
For her

Time to spend in the cold
Jump up to reach the void
Learning to speak to tell
What was the love I felt

Say you will say you will
Hold my hand lead you and me down
All the way all the way
Down the plains head south I never
Have you close enough I never
Have you close enough you know I
Never was the kind of boy who
Will repay love with a smile
