

# Make Me Happy

The Moog

Let's go out and  
Feel like we can  
Still believe that  
We're together

Hold my hand and  
Wildly kiss when  
You realize  
Something's wrong

Make me happy  
Make me sad  
Make me perfect  
Make me dead  
I pee my pants  
Then make you mine  
We'll be happy  
Till the end of time  
But when the next day comes  
We change our minds and then just run  
Till we find another find another find another love

I'll learn your smiles and  
Be more than bland  
All your friends say  
I'm such a nice guy

Please dance with me  
Oh can't you see  
I really love  
How you move

Make me happy  
Make me sad  
Make me perfect  
Make me dead  
I pee my pants  
Then make you mine  
We'll be happy  
Till the end(s) of time  
But when the next day comes  
We change our minds and then just run  
Till we find another find another find another love
