

# Never Hide!

The Moog

We just wait for the time when  
We can own and not just rent  
Our nights, our life

When our days can't be stolen  
By the empty and frozen  
Constant noise from our souls

But I never hide  
Oh I never hide  
Oh I never hide  
Till you're by my side  
And please never hide  
Oh please never hide  
Oh please never hide  
Till you're by my side  
Till you're by my side

We're like children who love to taunt  
and pretend that we don't want  
what we lost who we loved

Running faster and faster  
Maybe I'll get to somewhere  
or just fall to the floor

But I never hide  
Oh I never hide  
Oh I never hide  
Till you're by my side  
And please never hide  
Oh please never hide  
Oh please never hide  
Till you're by my side  
Till you're by my side

I wanna get away  
'Cause I can't stay  
But I don't know  
Which's the right way  
I wanna get away  
'Cause I can't stay  
But I will never...

I never hide  
Oh I never hide  
Oh I never hide  
Till you're by my side  
And please never hide  
Oh please never hide  
Oh please never hide  
Till you're by my side  
Till you're by my side
